

TECHNICAL DATA SHEET

PRO-LINE LADDER

The ladder is made of durable, weatherproof
o polypropylene ropes (plastic) or
o hemp ropes,

which are suitable for long-term use. All rung/rope joints are covered with leather to protect the attachment points and increase the quality of the product.

The ladder is extremely robust; it can hold approximately 2000 kg. Equipped with non-slip steps made of durable wood. Each ladder is provided with two hanging loops with a diameter of about 20 cm.

Besides the high quality, the ladders feature excellent durability and strength. The products are resistant to UV rays and weather conditions

The ladders comply with the standard PN-B-84/3758-10.
